Hardware & Software

Hardware

Supportnet strives to provide their clients the best hardware possible within the clients' budget. Our experienced engineers install, manage and support all major brands of hardware. Our clients are assured we have the best team to support their computer hardware for their business. We can provide you all your hardware needs, from a simple USB stick, a Keyboard to Servers , SANs and anything in between.

Software

Supportnet's procurement team can supply your Microsoft Licences and will manage your software renewals. Our team will advise and recommend the software best suited for your business, whether you need Retail, Open Licence, Software Assurance, Office 365 or a full Cloud SaaS solution we will manage it all.

If your business is a Non Profit or Charity entity we will assist you in your application to Tech Soup, on acceptance your Non Profit or Charity will receive additional Microsoft benefits.
